PRICE LABELLER**Replacing Ink Roller**

Press and pull apart Ink Roller Case.

2 Pull Ink Roller Holder by its grip.

* Widen Ink Roller Holder's sides, and replace Ink Roller with a new one.

PRICE LABELLER**Setting Letter Head**

1. Pull out or push in Dial Shaft to a desired digit of letter-band then turn the shaft.
2. After you set up all letters, push in the shaft completely.

Loosen the two screws on both sides of labeler close to letter head.

Move them left or right as instructed on above diagram.

*It's better not to change the position frequently.

CAUTIONS

- Do not drop the labeler from 1m or higher above the ground or do not expose it to places where shocks occur.
- The Labeler consists of A.B.S. and P.O.M. resin that are sensitive to chemical reactions, especially A.B.S. Do not expose to heat over 60 degrees Celsius(60°C).
- Do not inject general ink into Ink Roller. Special ink should be used for the product, otherwise the band will be damaged.
